Stone Soup Knitting

by Lorna Miser

Hand-dyed yarns are beautiful, but can be very expensive. If a single hand-dyed skein makes a scarf and there is a tiny ball of yarn left over, you are not likely to throw that little walnut-size ball away—every last yard of hand-painted yarn is valuable. But what can you do with such a small amount?

One of my most fun concepts is "Stone Soup Knitting." It's based on the old story about travelers who came to a town and no one would feed them, so they set up a pot with water and stones. A passerby asked what they were cooking, and they replied, "Stone soup, but it's a little weak. It could use some vegetables." The person was happy to offer a couple of carrots and potatoes. Another person came by and was willing to share some meat, then someone else added some seasonings. Soon, there was a delicious pot of soup for the whole village to enjoy together—all from "nothing but a couple of stones."

I love this concept for using up tiny amounts of precious yarns, like that little ball of yarn, for instance. Look through your stash, a friend's stash, or the yarn shop for single skeins of yarns that match your hand-dyed one in weight and coordinate in color. Different fibers and textures are acceptable, but the thickness of the yarns needs to match. I like to choose colors that match some of the hues in the hand-dyed yarn, as they are guaranteed to look pretty together. After all, you liked them in the skein of hand dyed, right? Don't go crazy collecting too many of the accent colors—the quantity will depend on whether you're making a hat or a sweater.

With this technique, all of the knitting is done with the yarns held double strand. This is great news if you have a lot of tiny leftover balls of hand-dyed sock yarn. When a sock-weight yarn is doubled, it is approximately worsted weight. The yarn I chose was DK weight, so all of the matching yarns are also DK weight. Doubled, I got a bulky-weight yarn of about 4 stitches per inch when knitted in st st.

Now to mix the colors. Estimate how much of the main color yarn (the "stone") you have. For this hat, I only used about 30 yards; however, there was more of each of the other three yarns. Pick any two yarns and begin knitting. After a few rows, work only one of the colors (not both), add in a different color, and continue. It's also okay to use both strands of one color. The key to the blended look is to change only one color at a time, which will also come in handy when weaving in the ends, as all of the ends won't be in one place. I chose to spread out the main color and use it to blend the other colors together.

This can be a great group project or knitalong. Divide a large skein of hand-dyed yarn into several small balls and give one to each knitter. Challenge everyone to use up every inch of their ball by adding in more yarns. It will be a real surprise to see how different everyone's projects turn out, even though they all begin with the same foundation.

Follow Lorna Miser as she shares her knowledge of yarn blending—and economizing—with *Stone Soup Hat*. Lorna chose to use a yarn with a sequin binder, making her finished project all that much more interesting. Have fun making your own hat using the pattern on page 60.

Making the Best *of Bobbles*

by Margaret Radcliffe

You're probably asking yourself, 'Why would anyone want to make a bobble?' You might not want to make bobbles very often, but if you need them, there's simply no substitute. They highlight cabled patterns, fill empty spaces in otherwise dull sections of knitting, and add whimsy to children's clothing.

Bobbles can add just the right decorative boost to a design. On the other hand, they can be some of the most unsightly and annoying embellishments to knit. Whether childishly cute or sophisticated and mature, they require careful handling to look their best (fine, upstanding, perfectly poised, and symmetrical). At their worst, bobbles leave gaping holes, twist degradedly, and hang dejected from the fabric. So how do we bring these little imps under control?

Bobbles are made by concentrating extra stitches in one spot in the fabric. First you increase to create the stitches and then you decrease to get rid of them. The more stitches—and the more rows you work on them—the larger the bobble. Some tiny bobbles are quickly and easily worked in just one row. More flamboyant knobs are made by working several rows on the new stitches before decreasing.

Bobbles trim this carouse baby hat, which is something I teach in my Fantastic No-Gauge Hats workshop

Bobbles on the back of on Aran vest.

When it comes to bobbles, bigger is not always better. Bobbles are hollow, so they are easily deflated. The larger the bobble, the more likely it is to become squashed and droopy. Choose the smallest bobble that will create the effect you want and don't hesitate to substitute a different bobble any time one is called for in a pattern. Seven examples of bobbles follow, from understated knots to large globes:

From bottom to top: small knot; larger knot; basic bobble; basic bobble with increase variation; basic bobble with decrease variation; bigger bobble; shapely bobble

Basic Bobble: Knit into front, back, front, back, front of the next stitch (making 5 stitches in 1). Turn, p5. Turn, ssk. k1, k2tog Turn, p3. Turn, slip 2 together knitwise, k1, pass the 2 slipped stitches over (1 stitch remains). On the following row. work into back of the bobble stitch to twist and anchor it more firmly. tighten it, then continue across the row.

Bigger Bobble: Increase to 7 stitches as for Basic Bobble. Turn, p7. Turn, ssk, k3, k2tog (5 stitches remain). Complete as for the Basic Bobble.

Basic Bobble with Decrease Variation: Increase as for the Basic Bobble. Turn, p5. Turn, k5. Repeat these two rows once more. With right side facing you, use the left needle to lift the 2nd, 3rd, 4th, and 5th stitch over the 1st stitch and off the needle. On the following row, work into the back of the bobble stitch to twist it

Shapely Bobble: This is one of my favorites because it holds its shape and doesn't twist. Increase as for the Basic Bobble. k1. Turn, p5. Turn, k5. Turn, p5, then pass the 2nd, 3rd, 4th, and 5th stitches over the 1st stitch to eliminate all of the extra bobble stitches. Turn and knit into back of bobble stitch to twist and tighten it, then continue across the row

P-k-p into front-back-front of stitch

Small Knot: On a right-side row, p-k-p into front-back-front of a single stitch, then work p3tog on these stitches on the following wrong-side row.

Passing the last of the 7 stitches over the first.

Larger Knot: On a right-side row, k-p-k-p-k-p-k into 1 stitch to make 7 stitches. With the left needle or your fingers, pass 6 stitches one by one over the last stitch you made.

K-yo-k-yo-k into a stitch to make 5 stitches

Basic Bobble with Increase Variation: Make the same as for the Basic Bobble, but increase to 5 stitches by working k-yo-k-yo-k into the bobble stitch

Notes and Variations

Now that you know how to make bobbles, you can add them whenever you like and make them any size you want. Keep the following in mind:

- Smaller knots can be worked much more quickly than larger bobbles.
- For more texture, make multi-row bobbles and knit (instead of purl) across the wrong-side rows to make the fabric bumpier.
- Save time by learning to knit backwards so you don't have to turn repeatedly.
- Space the bobbles closely to create allover texture.
- Make rounder bobbles by slipping the first stitch of each row.
- Add contrast-color bobbles by working a whole row in the new color and adding the bobbles as you go, then knit across the wrong side with the same color before switching back to the background color.
- For contrasting bobbles that float on the background color, change to the bobble color and knit the first stitch of the row to anchor the yarn. Slip the stitches before, after, and between the bobbles, keeping the yarn behind the fabric and leaving the strand loose so the fabric doesn't pucker. It's best not to slip more than 4 or 5 stitches at a time if your bobbles will be farther apart—consider knitting 1 stitch in the bobble color halfway between each bobble. To get the yarn back to the other edge of the fabric, work the row after the bobbles with the same color, knitting into the bobble stitches and slipping the intervening stitches.
Contrasting bobbles on a garter stitch ridge.

Your bobbles will behave differently depending on your yarn and the size of your needles. For example, bobbles made from stretchy wool yarn will hold their shape better than those worked in cotton or silk. When worked on larger needles, the base fabric will be looser and the bobbles will tend to droop and lose their shape. The appearance of bobbles will also change with the surface texture of the yarn—a multi-ply yarn with a lot of twist will show them off better than a loosely spun yarn or novelty yarn.

Planning Color Placement with
Self-Striping Yarns

by Mary Anne Oger

Have you ever been seduced by the multiple colors in a luscious-looking skein of yarn, only to be totally disappointed with the actual knitted piece? Some variegated yarns have a short color repeat that tends to form a horizontal stripe effect and occasionally pools or makes irregular patches of one color. When the width of the knitted piece changes, the patches change as well and can be unattractive. Sometimes random triangles or diamonds will appear, and just when you think you like that effect, something changes and they disappear. Another type of multicolored yarn has a hand-dyed effect with longer pieces between color changes, and others go through several colors without repeating within the ball. A little experimentation with some of the following techniques could be the answer to solving your multicolored dilemma.

Sideways-knit garments are a good way of using variegated yarns, because the stripes become vertical and more controllable. With a conventional pullover, the width of the rows changes, especially from the underarm up to the shoulder, and the pooling effect will be more random and different than in the lower part of the body. By changing to a sideways method, the length of the garment becomes the width of the row, and there is less extreme variation on the front or back and the stripes can be matched with a little planning.

The yarn used in *Stormy Weather Tunic* (page 26) is Linen Concerto from Plymouth Yarn. The color repeat on it is quite long,

and there are grading shades of gray and charcoal that blend with the indigo tones, creating larger blocks of the dark colors. The lighter areas are much smaller, and there are only two of the lighter stripes per ball. When looking at the original balls of yarn, most of them have the light color on the outside, but a few have indigo on the outside—this indicates that they do not all have the same starting/ending point in the color sequence. One of the advantages of using a knitting machine is that an entire ball of yarn can be knit in stockinette in just a few minutes, so it is quite easy to knit up a couple of balls to see what the color sequence and repeat is and then unravel and re-knit into the garment. After you do this on a few balls, you will be able to tell from the outside color which ball to choose for a match.

Swatches of Linen Concerto

Notice how the swatch on the right seems to have a different repeat than the other two, but after turning it end for end, it matches. That just means that it was wound from the end opposite of the first two; an easy thing to fix—just rewind it.

For the color sequence to match on the body, the garment is worked from the center out. From experience, I knew it would take about four balls of yarn to knit the front and another four balls for the back. I chose two balls at random for the first half and another two balls that matched for the opposite side. This way, the first half is knit as the color sequence comes, then that center edge is re-hung the opposite way and you monitor the color sequence to match in reverse of the first half. The front is done the same way so, before starting, select the balls from the outside color and label them in the order that you will use them. The back and front will somewhat match over the shoulder line

Original balls of Linen Concerto

(it doesn't have to be exact) and when the sleeve is knit down, you should have the same place to start each one. There will be times where you are pulling off a section that does not match to get to the spot where it does—save these longer pieces to be used in the edgings and finishing if necessary.

Swatch of one ball of Linsey

Another Method of Altering Patchy Work

This photo shows another yarn with a hand-painted look. Berroco Linsey (See KS 185, Contrasts). It contains basically five colors—yellow, pale green, blue, red, and sand brown—and shades a bit between major colors, with the red and brown appearing only at one end of the colorway in each ball.

Two balls of Linsey knit from matching ends

Using Two Balls at One Time

To change the length of the color repeat, knit from two balls at the same time. Knit one to three rows with the first ball, then knit one to three rows with the second ball, alternating between the two. It doesn't have to be exact or identical each time. If it is a yarn with a long color space, use the same end of each ball to extend the length of each color. If you want to mix it up more, use opposite ends to get a shorter, more mixed color play.

Two balls of Linsey using opposite ends of colorway

In this swatch, note how the red stripes are more evenly distributed throughout the entire piece.

Experimenting and swatching are keys to changing up these colorways, and having a machine to do that can make it a fun and challenging experience!

*GUIDELINES ONLY: The above reflect the most commonly used gauge and needle or hook sizes for specific yarn categories.

**Lace weight yarns are usually knitted or crocheted on larger needles and hooks to create lacy, openwork patterns. Accordingly, a gauge range is difficult to determine. Always follow the gauge stated in your pattern.

***Steel crochet hooks are sized differently from regular hooks—the higher the number, the smaller the hook, which is the reverse of regular hook sizing.

DESIGNER NOTES
- Finished weight, second size, 640g.
- Sideways-knit pullover tunic. Because rows make the width of the garment, choose sizes larger than normal, as garment will lengthen and narrow when hung/worn.
- Read through entire pattern and make a cheat sheet for your size before beginning because of different shaping at each side.
- When one number only, applies to all sizes.
- Back and front are shaped on waste and knit from center to side seam, turned and rehung at center, and knit to other side seam to allow for color matching. Align at same needles on needlebed for easier finishing.
- Shoulders are then seamed and sleeves are knit down from rehung stitches.
- 7" noses anting zipper in front neckline is

encased with vertical knit placket, hand or machine stitched in place on outside.
- Hem and sleeves are finished with rehung chained edging.

INSTRUCTIONS

SHAWL
Beginning at the center Back neck edge, CO 8 sts.

Increase Row (WS): K1, [k1-f/b] twice, [p1,

M1] twice, [k1-f/b] twice, k1 [14 sts].

Note 1: The 2 Set-up rows for the Shawl are shown in-full on the Body pattern Chart, as well as the beginning of the next 2 Lace panels (Rows 35 and 36). **For all rows after these 2 Set-up rows,** work across to the center Cable panel, then work in reverse from the Cable panel to the beginning of the row (both sides are identical, each side of the Cable panel). The center Cable panel will remain vertical from the Back neck to the lower edge; the Body sections slant to each side as sts are increased (see Diagram for direction of each section).

Note 2: The Shawl is shaped by working a yarn-over every RS row, inside the center Cable panel. The increased sts are worked in St st until the Lace panels begin (see Charts and Diagram).
Set-Up Row 1 (RS): K3 (edge sts, keep in Garter st), yo, p2, k4, p2 (center Cable panel), yo, k3 (edge sts, keep in Garter st) [16 sts].
Set-Up Row 2: K3, p1-tbl, k2, p4, k2, p1-tbl, k3.
Establish Pattern
Row 1: K3, pm; yo, k1, yo; pm, p2, k4, p2, pm; [reverse direction if working from Chart]; yo, k1, yo; pm, k3 [20 sts].
Row 2 (WS): Work even as established, purling the yo's in the Body sections [3 sts in each Body section between markers].
Row 3: Continue as established, keeping the first and last 3 sts in Garter st as edge sts and beginning the center Cable panel (Row 3) on the center 8 sts. Increase 1 st each side of each Body section, working

the entire row as follows: [K3, yo] twice, p2, C4F, p2, [yo, k3] twice [5 sts in each Body section].

Row 4: Work even as established.

Row 5: K3, yo, k1, yo, sssk, yo, k1, yo, work Row 1 of the Cable panel; yo, k1, yo, sssk, yo, k1, yo, k3 [7 sts in each Body section].

Row 6: Work even as established, working p1-tbl on center st of both Body sections.
This completes the 6-row set-up for the Lace panel on each Body section; it may be helpful to place additional markers around the Lace panels as they are added.

Row 7: K3, yo; work Row 1 of the Lace panel across 7 sts; yo, work Row 3 of the Cable panel; yo; work Row 1 of the Lace panel across 7 sts; yo, k3.

Rows 8 and 10: Work even as established.

Row 9: K3, yo; k1; work Row 3 of the Lace panel across 7 sts; k1; yo, work Row 1 of the Cable panel; yo; k1; work Row 3 of the Lace panel across 7 sts; k1; yo, k3.

Row 11: K3, yo; k2, work Row 5 of the Lace panel across 7 sts; k2; yo, work Row 3 of the Cable panel; yo; k2, work Row 5 of the Lace panel across 7 sts; k2; yo, k3.

Row 12: Work even as established, working p1-tbl on center st of both Body sections.
Continue in this manner, working increased sts as established in St st each side of the Lace panels, Rows 1–6 of the Lace panel, and Rows 1–4 of the Cable panel as set. When 34 rows have been worked, beg the next Lace panels as shown on the Chart. Continue in this manner, adding Lace panels when enough sts have been increased, until the piece measures 26" or desired length, down center Back (Cable panel); end with a WS row.

Edging
(RS) Knit 4 rows (Garter st), adjusting the stitch count, if necessary, to a multiple of 18 sts + 1.
Row 1: K1 (edge st), yo, k7, *sssk, k7, yo, k1, yo, k7; repeat from * across to the last 11 sts, sssk, k7, yo, k1 (edge st).
Rows 2–15: Continue from the Chart, ending with a RS row.
(WS) Knit 4 rows.
(WS) BO all sts knitwise.

FINISHING

Skill Level: Easy   **Yarn Weight:** #5

· Size 7 US (4.5 mm) knitting needles
· Yarn needle, sewing needle and matching thread (optional)
GAUGE
· Gauge is not critical for this project.

DESIGNER'S NOTES
· Pull out a short length of Starbella Lace and pull the ribbon widthwise to open it up. The meshy lace border should be at the bottom for this project. The open loops at the top of the yarn, and these loops are what you will use to knit.

INSTRUCTIONS
SCARF
CO 5 sts as follows: Pull out a length of Starbella Lace and open it up; insert into each loop along top edge, working from back to front.
Row 1: Knit.
Rep Row 1 until 1 yard of yarn remains.
BO all sts as usual, pulling the yarn through the top loop of the last stitch.

FINISHING
Weave in ends. Because this yarn is actually netting, you may prefer to use an optional sewing needle and thread to secure ends; trim close to stitching.

DESIGNER NOTES

- Jacket features waist shaping worked within a Cable/Rib panel at the center Back and on each Front and under-dropped sleeves.
- The Fronts are shaped at the lower edge using Short-Row shaping.
- Wide Front bands worked in 1x1 rib are designed to fold to the RS, creating a notched, mini shawl color.
- The Body shaping is worked on the side edges of the Back and Fronts *at the same time* as the shaping of the Cable panels.
- Work all side shaping 1 st in from the edge to make seaming easier.
- The armhole shaping is worked *at the same time* as the Upper Back shaping

and the neck shaping on Fronts.

- The armhole shaping, after the initial BO, is worked several sts in from the armhole edges – *this is a design element, not an error in the instructions.*
